WELCOME TO OUR LEARNING CLUB

Meet your new friends

Count. Explore. Discover. An adult can read with you.

Aishatu

The toy maker

Hello! I'm Aishatu. I live in Gombe town.

My cousins and I make cardboard toys. Sometimes I rush! I am learning to stop and check.

Come and make something with me!

Adamu

The storyteller

Hi! I'm Adamu. My family comes from Dukku.

I love stories and games. Sometimes I guess too soon. My friends help me check.

Come and play! Everyone gets a turn.

What do you like to make or play?

WELCOME TO OUR LEARNING CLUB

More friends to meet

Count. Explore. Discover. An adult can read with you.

Grace

The careful explorer

Hello! I'm Grace. My family comes from Billiri.

Grandfather and I keep a notebook. We draw things we notice. A mistake can teach me something!

What can we discover together?

John

The puzzle maker

Hi! I'm John. My family comes from Yamaltu/Deba.

I draw places and make puzzles. I use a wheelchair. I am learning to ask for help.

Bring your ideas. Let's solve a puzzle!

You belong here too. Let's learn and help one another.

COME INTO OUR CLASSROOM

Our counting club

Aishatu, Adamu, Grace and John are ready to learn together.

Ms Binta: Welcome, friends! Face the board. Let's learn to count together.

Children: We're ready, Ms Binta!

Meet Mr Aliyu

Hello! I am Mr Aliyu. I will teach our next chapter. First, show me what you learn with Ms Binta!

Aishatu: Welcome, Mr Aliyu! You can join our learning club.

WATCH ME

Learn with Ms Binta

One to five / Watch your teacher before you try.

Ms Binta: Aishatu, touch each cup and say one number.

Aishatu: I will start at the left. Count with me!

Ms Binta: Ask an adult to put some large, unbreakable cups on a table.

Aishatu: Can you count along with me?

Watch Aishatu. Count with her.

Aishatu: Watch me touch each cup once. Listen: one, two, three.

one

two

three

Aishatu: There are three cups!
Ms Binta: Yes. Three is the last number we said.

Remember what Ms Binta does

Touch one. Say one number.

LET'S TRY

Count with Ms Binta

Touch a cup picture and say one number at the same time.

Ms Binta: Grace, count the cups with me. Then tell us how many.

Grace: I'll keep our cup record. Join in with us!

Touch and count the cups	Say	Number
	one	1
	two	2
	three	3
	four	4
	five	5

Grace: Now let's try with real cups. Your partner can listen.

YOUR TURN

Count with your friends

Ms Binta reads each task. Join the children and try it.

Aishatu's cups

Aishatu: Count with me. Touch each cup once. Write how many.

Grace checks her record

Grace: Please check this group with me. Count the cups. Write how many.

John's picture idea

John: Let's draw a circle for each cup. You will draw two circles.

Ms Binta: Yes, John.
A circle can stand for a cup.
Draw your circles here.

REMEMBER AND TRY

Write and show

First remember the counting. Then try the writing.

Ms Binta: John, the written number can show how many cups you counted.

John: Can we put our numbers in my picture book?

Grace writes the numbers

Grace: Trace with me. Then write the numbers in the empty boxes.

1	2	3	4	5
_____	_____	_____	_____	_____

John counts on his hand

John: Hold up four fingers with me. Count them. Write how many.

How many? ☐

Ms Binta: You can show four cups instead if you prefer.
John: Tell me how you checked!

REMEMBER AND HELP

Help Adamu count

Try to remember before looking back at the teacher's example.

Ms Binta: Adamu, what do you remember about counting?

Adamu: I touched one cup twice. Can we check together?

Help Adamu start again

Adamu: I touched a cup twice. Show me how to count each cup just once.

Touch each cup once. Count aloud.
How many cups are there?

The club is ready to check

Ms Binta: Put four cups on the table for our club.
Aishatu: Ask a partner to name a number below. Point to it.

3	1	5	2	4

FOR THE TEACHER

Teach, notice and return

Ms Binta leads this chapter; Mr Aliyu is introduced for the next.

Start with real objects. Use five large, clean, unbreakable cups. Read pupil text aloud. Demonstrate slowly with a fresh set of three: one touch and one number word per cup, then state the total. Introduce the cup pictures and numeral column afterwards. Do not require pupils to read task labels or remember a slogan before modelling.

Recall through action. On the later pages, first ask what Ms Binta showed them and invite a demonstration. Wait for a response. If needed, model again and practise together. Observe counting, stating the total and recognising numerals separately from handwriting. Read character exchanges with the class; let pupils take roles and demonstrate. Speaking, pointing or moving objects are valid responses.

Answer and assessment map (adult IDs only)

P1-01-Q1 / Count the row: Three cups; one touch and one number word per cup.

P1-01-Q2 / Count this group: Five cups, despite their different positions.

P1-01-Q3 / Draw to show how many: Two separate circles, one for each cup picture.

P1-01-Q4 / Write the numbers: The numerals one to five in order; observe independent formation separately from tracing.

P1-01-Q5 / Show with your hand: Four fingers and the numeral 4. Accept a set of four objects if a hand response is unsuitable.

P1-01-Q6 / Help Adamu start again: Touch or move each cup exactly once, say one number per cup, and state three cups. Explain or demonstrate without requiring written prose.

If a child struggles
Skips or repeats: line up the cups; move each counted cup aside. Recheck with a fresh small set.
Cannot state the total: repeat the last number, then ask how many altogether.
Copies but cannot recognise: match cups to a numeral, shuffle the cards and ask again.

Fresh check: ask for four cups, without a model. Name one shuffled numeral at a time. Record independent / with help / not yet. **Later:** On another day ask what Ms Binta showed the class. Invite a demonstration with a fresh small set before showing the model again.
