WELCOME TO OUR LEARNING CLUB

Meet your new friends

Read together. There is a place for you in our club!

Aishatu

The toy maker

Hello! I'm Aishatu. I live in Gombe town. My cousins and I turn cardboard into toys. I get so excited that I sometimes start too quickly! I am learning to stop, count and check. Come and make something with me!

Adamu

The storyteller

Hi! I'm Adamu. My family has roots in Dukku. I love telling stories and making up games for my friends. Sometimes I guess an answer too soon. My friends help me check it. Come and play! We can make fair rules together.

What do you like to make or play?

WELCOME TO OUR LEARNING CLUB

More friends to meet

Read together. There is a place for you in our club!

Grace

The careful explorer

Hello! I'm Grace. My family has roots in Billiri. Grandfather and I keep a notebook of things we notice. I like getting things right, but a mistake can help me learn too. Will you help me fill a page with new discoveries?

John

The puzzle maker

Hi! I'm John. My family has roots in Yamaltu/Deba. I draw imaginary places and turn them into puzzles. I use a wheelchair to get around. Sometimes I need help, and I am learning to ask. Bring your ideas! Let's solve a puzzle together.

You belong here too. Let's learn, try and help one another.

OUR LEARNING CLUB / CHAPTER 1

One to five

Count, read, write and order 1 to 5.

Aishatu, Adamu, Grace and John start a learning club in Gombe.

Aishatu: Let's make a counting game!

Adamu: Oops! I counted that counter twice.

Grace: Touch each counter once. Say its number.

John: Slide it onto the mat. I'll check with you!

Talk together How can you count each counter just once?

LEARN TOGETHER

Touch. Say. Count.

Touch each dot once. Say its number as you touch it.

1	one	●
2	two	● ●
3	three	● ● ●
4	four	● ● ● ●
5	five	● ● ● ● ●

The last number tells how many.
Touch row three again: 1, 2, 3.
There are 3 dots.

Try it with a partner

A partner shows 1 to 5 large counters. Count them. Choose the matching number card. Swap roles.

PRACTISE / QUESTIONS 1 TO 3

Count and draw

Name: _____ Date: _____

1. Count row A. Write the number.

A 

How many? ☐

2. Count row B. Write the number.

B 

How many? ☐

3. Draw 2 circles.

Say the number as you draw each circle.

PRACTISE / QUESTIONS 4 TO 6

Write, show and explain

You can point, speak or draw before you write.

4. Write 1 to 5 in order.

Read the model. Then write your own row below.

1	2	3	4	5

5. Show 4 fingers. How many?

Write how many: ____

6. Adamu counts one counter twice. Show a better way.

Use large counters. Explain your way to a partner.

I can... count to five / read 1 to 5 / write 1 to 5.
Tell an adult one thing you would like to practise again.

TEACHER AND REVIEWER / KEEP WITH THIS CHAPTER

Guide and answers

Two introduction pages, four counting pages and this teacher page.

Goal: Count, read, write and order 1 to 5.
Words: count; number; how many.
Materials: five large, clean counters and number cards 1 to 5. Use pieces too large to swallow, with adult supervision.

Teach and notice

Read the introductions and story aloud; independent reading is not required. Let a pupil move each counter into a counted group. Ask, "How many altogether?" Look for one touch per object and use of the last number as the total. Vary spacing while keeping the count unchanged. Model numeral formation before writing. Accept speech, pointing, movable cards or an adult scribe as appropriate; check writing separately.

Answers and observation

1. 3

2. 5

3. Two separate circles.

4. 1, 2, 3, 4, 5

5. 4

6. Touch or move each top exactly once.

Historical curriculum links

P1-p01-02: identify how many (Q1, Q2, Q5). P1-p01-03: count correctly up to five (Q1, Q2, Q6). P1-p01-04: write numerals one to five (Q4). These retain the existing 2012-lineage crosswalk; current alignment is unverified.

Sample and artwork status

Fictional school and events; no real school or community dress code is depicted. Portraits and story: built-in image_gen, 18 October 2026; mustard hijab restored at user request. The user requested one chapter for assessment; this bounded experiment does not approve the references or authorize bulk scenes. Exact dots are drawn by code. Only the dot rows and physical demonstration are assessed. Character, local educator, wheelchair depiction and physical print reviews remain pending.

Review this sample

Are the story and characters engaging? Is the language suitable for Primary 1? Is there enough writing space? What should change in the art, colours or teaching? Print pupil pages 1-6 at actual size / 100% to assess writing space.
